

EAST RUTHERFORD, N.J.--(BUSINESS WIRE)--

Tel Instrument Electronics Corp. (Tel) announced today that it recorded a net loss of \$85,772 on sales of \$3.2 million as compared to a net loss of \$668,800 on sales of \$1.2 million in the year ago quarter. This improvement is mostly attributed to the resumption of shipments on the CRAFT program as well as improved sales of other products including a partial production release on the TS-4530A program. The Company is expecting continued revenue and profitability growth for the balance of this fiscal year as a result of higher shipments on the U.S. Army TS-4530A and U.S. Navy ITATS programs.

The Company also announced that it has retained OEM Capital as its exclusive financial advisor to explore strategic alternatives, including debt recapitalization, merger, sale or business combination of the Company with a third party with a goal to enhance shareholder value. There can be no assurance that any transaction will occur, and there is no defined timeline for the process. The Company does not intend to comment further regarding the process until such time, if any, as the Company determines that disclosure is appropriate or required.

We encourage everyone to read our full results of operations contained in our Form 10-Q filed on August 14, 2013 at sec.gov.

About Tel-Instrument Electronics Corp

Tel-Instrument is a leading designer and manufacturer of avionics test and measurement solutions for the global commercial air transport, general aviation, and government/military aerospace and defense markets. This press release includes statements that are not historical in nature and may be characterized as forward-looking statements, including those related to future financial and operating results, benefits, and synergies of the combined companies, statements concerning

the Companys outlook, pricing trends, and forces within the industry, the completion dates of capital projects, expected sales growth, cost reduction strategies, and their results, long-term goals of the Company and other statements of expectations, beliefs, future plans and strategies, anticipated events or trends, and similar expressions concerning matters that are not historical facts. All predictions as to future results contain a measure of uncertainty and, accordingly, actual results could differ materially. Among the factors which could cause a difference are: changes in the general economy; changes in demand for the Companys products or in the cost and availability of its raw materials; the actions of its competitors; the success of our customers; technological change; changes in employee relations; government regulations; litigation, including its inherent uncertainty; difficulties in plant operations and materials; transportation, environmental matters; and other unforeseen circumstances.

A number of these factors are discussed in the Companys previous filings with the Securities and Exchange Commission. The Company disclaims any intention or obligation to update any forward-looking statements as a result of developments occurring after the date of this press release.

The Companys stock is traded in the American Stock Exchange under the symbol TIK.
