

June 20,2025

A NEW Software update version 1.5.6 is available to all users of the SDR-OMNI and SDR-OMNI/MIL Test Sets.

We are excited to release this new version which includes full WIFI capability and numerous updates improving the SDR and its capabilities. and also includes calibration/validation procedures.

Please navigate to the SDR Downloads Tab at the bottom of this page to get a copy of the SW.

Click on the link to download the full package which includes the Service Bulletin, New Updater Utility, and Software with instructions.

Owners of a SDR-OMNI/MIL must contact Tel-Instrument directley (or thier distributor) to get a copy of the update.
