

Description

The TR-100 TACAN Test Set has been discontinued and its direct replacement is the SDR-OMNI/MIL All-In-One Test Set.

The TR-100AF is a easy to operate, and rugged ramp test set used to verify airborne TACAN equipment. Full selectability of bearing, range, frequency, and velocity to custom program TACAN test scenarios. Built in Batttery Charger with front panel access. Direct Connect Capabilities for accurate measurements of power and frequency.
