Marc Perillo
Director - Engineering

Marc Perillo joined TIC in 2003 and leads our New Jersey Engineering department. Prior to arriving at TIC, Mr. Perillo had been an engineering consultant to Telephony and Test & Measurement companies such as Verizon, Fluke, and Hewlett-Packard. Mr. Perillo s work with several telecom startups was pivotal to their successful acquisition. Since arriving at TIC, Mr. Perillo has been at the center of IFF/Mode-5 product development. His core competence is in the area of object oriented design and modeling as applied to real-time embedded systems. Mr. Perillo has a degree in Computer Science from   Manhattan College
