

ISO 9001:2015 Quality Certification

QUALITY. CONSISTENCY. CONTINUOUS IMPROVEMENT.

Tel-Instrument Electronics Corp. maintains an ISO 9001:2015 certified Quality Management System supporting the design, manufacture, testing, calibration, repair, and support of avionics test equipment.

ISO 9001:2015 certification demonstrates our commitment to consistent processes, product quality, customer satisfaction, regulatory compliance, and continual improvement throughout our organization.

Current Certification

Tel-Instrument was awarded its current ISO 9001:2015 Quality Management System certification on March 7, 2024. The certification remains valid through March 7, 2027, subject to required surveillance audits and continued compliance with the standard.

The certification audit was performed by SAI Global.

Certification Scope

Please refer to the official certificate below for the complete certified scope, registration information, and applicable locations.
